NGBT
CONFERENCE**

**10TH INTERNATIONAL
NEXTGEN GENOMICS, BIOLOGY, BIOINFORMATICS
AND TECHNOLOGIES CONFERENCE**
27TH - 30TH SEP, 2020, KOLKATA, INDIA

SciGenom Research Foundation (SGRF) is pleased to announce the NextGen Genomics, Biology, Bioinformatics and Technologies (NGBT) Conference. It will be held from 27th – 30th Sep, 2020 in Kolkata, West Bengal, India. This is the tenth edition of the international conference (NGBT) hosted by SGRF Conferences, the educational outreach arm of SciGenom Research Foundation (SGRF), along with national and international educational institutes with a primary goal to promote and support Science and Scientific research in India and South Asia. The 2020 NGBT conference is jointly hosted in collaboration with Indian Institute of Liver and Digestive Sciences (IILDS), South Dumdum, India.

The 2019 NGBT conference was attended by over 800 delegates from India and various parts of the world. There were 25 keynote lectures and 100 talks over three days. Dr. Gagandeep Kang, Dr. Vivek Malhotra, Dr. John Kuriyan, Dr. Jon Pines, Dr. Deepak Pental and Dr. PK Gupta were recognized for their outstanding scientific contributions at the meeting. The conference featured over 200 posters and 15 poster awards sponsored by prestigious journals such as Nature, EMBO and Science Signaling. Over hundreds students were supported through SGRF meeting scholarships. Mr. Navin Chawla, former Chief Election Commissioner of India, spoke about "Every Vote Counts". The meeting also featured an art exhibition and performance by Dharavi Rocks.

The 2020 NGBT conference will showcase speakers from multiple areas of biology and biology-enabling technologies. It will be a broad meeting covering advances in genomics technologies for basic and translational science. Talks will cover many areas of biology including human genetics, drug discovery, clinical medicine, biomarkers, diagnostics, animal, plant and agricultural sciences. It will also cover basic sciences, cellular signalling, cancer biology, conservation sciences and plant biology. We expect over 1000 delegates to participate. The conference, as in the past, is designed to provide a forum for scientists and students to share their work, build new connections and explore collaborations.
